

# Product Overview

Now is always the best time to start saving for the future. However, selecting the right savings strategy can be difficult and often becomes confusing when considering the many available choices. How about an easy to understand, simple and guaranteed way to safely grow your savings? Introducing the Milestone MYGA, a single premium deferred fixed annuity with multi-year rate guarantees

## Features & Benefits

The Milestone MYGA provides a guaranteed fixed rate of interest over a period of time called a guarantee period. Your money grows safely on a tax-deferred basis during this time without market risk.

At the end of the initial guarantee period, money can be withdrawn without surrender charges during a 30-day penalty free window, left to grow for another guarantee period depending on the initial guarantee period selected, or taken as an income stream in any one of the available annuitization payout options.

With a guaranteed fixed rate of interest, tax-deferred earnings, penalty-free withdrawals, a choice of guarantee periods and flexibility through multiple options at the end of the initial guarantee period, a Milestone MYGA may be a great way to help you reach your savings milestones.

### Guaranteed Interest Rates

- Your premium starts working for you immediately by earning a **guaranteed interest rate** that grows on a tax-deferred basis.

### Protection of Principal

- By earning a guaranteed fixed interest rate instead of participating in the stock market, **you don't have to worry about market risk or volatility.**
- Premium payments, less surrender charges and market value adjustment, if any, are protected based on the claims paying ability of Sagicor.

### Tax-Deferred Growth

- The Milestone MYGA grows on a **100% tax-deferred basis**, which boosts growth by allowing more of your money to compound over time.
- Your premium earns taxed-deferred interest and the compounding interest is also taxed-deferred.

### Penalty-Free Withdrawals

- Beginning in the second contract year you may withdraw an amount equal to 10% of the last contract anniversary accumulation value without a surrender charge or market value adjustment (MVA).
- There is a minimum withdrawal requirement of

- Income taxes are only due when you start taking withdrawals.

#### Death Benefit

- In the event of death, your beneficiary(ies) will be paid a death benefit equal to the accumulation account value of your annuity **without surrender charges or market value adjustment**.
- A beneficiary may choose to receive the death benefit in either a lump sum or any of the available annuitization options.

#### Surrender Charges

- A surrender charge applies to withdrawal amounts that are greater than the penalty-free withdrawal limit. Each guarantee period has its own surrender charge schedule.
- The surrender charge amount is a percentage of the accumulation value and **decreases over time**. If your annuity renews for a new guarantee period the surrender charge schedule will reset and start over.
